## **Reminder about Ecobuild**

SCIP is an active participant in Ecobuild Fall in Washington, DC next month. If you are able to attend, you will have a chance to interact with SCIP members and hear some excellent programs. Check it out at [www.ecobuildfall.com](http://www.ecobuildfall.com). If you would like to attend the exhibit hall on Wednesday December 12 and/or Thursday, December 13, contact Nina Giglio ([NGiglio@hallarch.com](mailto:NGiglio@hallarch.com)) for a free pass.

Here's more information about some of the more than 70 educational sessions:

Keynote Speaker on Wednesday, December 12 is RK Stewart, President of the AIA, on Sustainable Design.

Keynote Speaker on Thursday December 13 is Patrick MacLeamy, CEO of HOK and Founder of the IAI/buildingSMART alliance.

SCIP Presentation on Tuesday December 11 is by Mark Kalin, FAIA, FCSI, LEED-AP on developing green specifications.

SCIP Presentation on Tuesday December 11 is a panel including Dennis J. Hall, FAIA, FCSI, SCIP President, Nina M. Giglio, CSI, CCS, SCIP, and Mark Kalin FAIA, FCSI, LEED-AP on Building Information: A Life-Cycle Approach to Design Management.

The FEDspec conference on Wednesday December 12 is cosponsored by SCIP and endorsed by CSI. Dennis J. Hall, FAIA, FCSI, SCIP President will moderate the morning session. David E. Lorenzini, FCSI, CCS, SCIP will co-present with Roger Grant, Director of the Technical Services and Development Department of CSI about Specifying on Federal Government Projects. Mark Kalin, FAIA, FCSI, LEED-AP will moderate the afternoon session on Advances in Master Specification Systems.

On Thursday December 13, SCIP will present a 2-hour Specifiers Forum.

The December issue of SCIPping Along will report more details about this event. If you can find a way to get there, it will probably be a good experience!
